24 Days of Puzzles

Day 15 – Prime's Only

Use each of the numbers 2, 3, 5 and 7 once and only once
along with any combination of the arithmetic operators + - * /
and at most one set of parenthesis ( ) to make each number 1 through 10

For example, here are two ways to make the number 10

(3 + 7) / 2 + 5 and 3 * 5 - 7 + 2

Good Luck!
