

24 Days of Puzzles

Day 6 – Alphametics

Alphametics are puzzles that use simple arithmetic in which letters represent unique single digit numbers. The trick is to determine the number that each letter corresponds. Below there are eight distinct letters, O, N, E, T, W, F, U and R. The letter O is used four times, N, E is used two times and the other five letters are used just once.

Use the numbers 0 through 9 (two of which will NOT be used) to solve the puzzle and make things add up!

Good Luck!

O N E	<input style="width: 40px; height: 30px; border: 1px solid black;" type="text"/>	<input style="width: 40px; height: 30px; border: 1px solid black;" type="text"/>	<input style="width: 40px; height: 30px; border: 1px solid black;" type="text"/>
O N E	<input style="width: 40px; height: 30px; border: 1px solid black;" type="text"/>	<input style="width: 40px; height: 30px; border: 1px solid black;" type="text"/>	<input style="width: 40px; height: 30px; border: 1px solid black;" type="text"/>
+ T W O	+	<input style="width: 40px; height: 30px; border: 1px solid black;" type="text"/>	<input style="width: 40px; height: 30px; border: 1px solid black;" type="text"/>
F O U R	<input style="width: 40px; height: 30px; border: 1px solid black;" type="text"/>	<input style="width: 40px; height: 30px; border: 1px solid black;" type="text"/>	<input style="width: 40px; height: 30px; border: 1px solid black;" type="text"/>
